LED Drop-in replacement for numerous applications such as instrument cluster overlay backlighting, map lights, dash and gauge light applications. Used as a guaranteed replacement for all 12-Volt AC/DC G3-1/2 and G4-1/2 "Globe-Shaped" bulbs with Ba9S bulb base. Can be used as a replacement in many other BA9s Base application. Reference picture of bulb dimensions to verify fit.

120 degree beam angle keeps the light focused nicely to prevent distracting halation.

This is a medium-low intensity led.

### SPECIFICATIONS:

- Base Type: BA9s (Miniature Bayonet)
- Bulb Shape: G3-1/2; G4-1/2 (Globe Shape)
- Voltage: 12V AC/DC
- Current draw: 50mA
- Dimmable: YES (voltage-dependent intensity decrement; PWM drivers)  
\*Reduced current draw of LED may narrow the effective dimming range when used with rheostat-type dimmer controls)
- Polarity: Base Ground
- Beam Angle: 120 degrees
- Certifications: RoHS, CE

Replaces Stock G3-1/2 Bulbs: 53, 53X, 53R, 182, 1445, 363, 274004 (GM)

Replaces Stock G4-1/2 Bulbs: 57, 1895, 6253, 57B, 57G, 57R, 9417863
